Review

VASIL, I. K. and C. NITSCH: Experimental Production of Pollen Haploids and their Uses 191

Originalarbeiten · Original Papers

ALBERTE, R. S., J. D. HESKETH, and J. S. KIRBY: Comparisons of Photosynthetic Activity and Lamellar Characteristics of Virescent and Normal Green Peanut Leaves . 152

AUDISIO, S., N. BAGNI and D. SERAFINI FRACASSINI: Polyamines during the Growth *in vitro* of *Nicotiana glauca* R. GRAH. habituated Tissue 146

BÄHRE, R.: Zur Regulation des Protonemawachstums von *Athyrium filix-femina* (L.) ROTH. I. CO₂-Äthylen-Antagonismus
On the Regulation of the Development of the Fern Protonema, *Athyrium filix-femina* (L.) ROTH. I. CO₂-Ethylene-Antagonism 243

BÄHRE, R.: Zur Regulation des Protonemawachstums von *Athyrium filix-femina* (L.) ROTH. II. Acetylcholin als Äthylenantagonist
On the Regulation of the Development of the Fern Protonema, *Athyrium filix-femina* (L.) ROTH. II. Acethylcholine-Ethylene-Antagonism 248

BÄHRE, R.: Zur Regulation des Protonemawachstums von *Athyrium filix-femina* (L.) ROTH. III. Wirkung von Auxin (IAA) und Antiauxin (PCIB) unter verschiedenen Lichtbedingungen
On the Regulation of the Development of the Protonema from *Athyrium filix-femina* (L.) ROTH. III. Effect of Auxin (IAA) and Antiauxin (PCIB) under Different Light Conditions 323

BAUER, R., W. HUBER and N. SANKHLA: Effect of Absciscic Acid on Photosynthesis in *Lemna minor* L. 237

VAN BEL, A. J. E. and L. REINHOLD: Is the Stimulation of Sugar Transfer by Exogenous ATP a pH Effect? 224

BOLLIG, I.: Photoperiodic Time Measurement and Circadian Leaf Movement in *Pharbitis nil* Controlled by the same Clock? 54

DECLUIRE, M., W. DE CAT, et R. BASTIN: Détection Rapide de Divers Herbicides dans l'Eau par la Mesure *in vivo* del'Activité de la Nitrate Reductase de *Lemna minor* L. Rapid Detection of Various Kinds of Herbicides in Water by the *in vivo* Determination of Nitrate Reductase Activity in *Lemna minor* L. 315

FEIGE, G. B.: Untersuchungen zur Ökologie und Physiologie der marinen Blaualgenflechte *Lichina pygmaea* Ag. III. Einige Aspekte der photosynthetischen C-Fixierung unter osmoregulatorischen Bedingungen
Investigations on the Ecology and Physiology of the Marine Blue-Green Algae Lichen *Lichina pygmaea* Ag. III. Some aspects of photosynthetic C-fixation under osmoregulatoric conditions 1

GREGOR, H. D.: Studies on Phenylalanine Ammonia Lyase from Castor Bean Endosperm. I. Subcellular Localization and Induction of the Enzyme 454

HAMPP, R., K. BEULICH, and H. ZIEGLER: Effects of Zinc and Cadmium on Photosynthetic CO ₂ -Fixation and Hill Activity of Isolated Spinach Chloroplasts . . .	336
HESS, D., G. SCHNEIDER, H. LÖRZ and G. BLAICH: Investigations on the Tumor Induction in <i>Nicotiana glauca</i> by Pollen Transfer of DNA Isolated from <i>Nicotiana langsdorffii</i> . . .	247
HÖLL, W.: Lipase Activity in the Trunkwood of <i>Tilia cordata</i> MILL. . .	252
HÜGEL, B.: Gegensätzliche Geschlechtsausprägung von Blütenstandsanlagen der Langtagpflanze <i>Lemna gibba</i> und der Kurztagpflanze <i>Lemna paucicostata</i> <i>in vitro</i> Opposite Sex-expression of Flower Primordia of the Long-day Plant <i>Lemna gibba</i> and of the Short-day Plant <i>Lemna paucicostata</i> <i>in vitro</i> . . .	395
JAFFE, M. J.: Thigmomorphogenesis: A Detailed Characterization of the Response of Beans (<i>Phaseolus vulgaris</i> L.) to Mechanical Stimulation . . .	437
JANAUER, G. A. und H. KINZEL: Die Wirkung von Atrazin auf den Stoffwechsel von <i>Phaseolus vulgaris</i> L. II. Kohlenhydrate und Organische Säuren Effects of Atrazine on the Metabolism of <i>Phaseolus vulgaris</i> L. II. Carbohydrates and Organic Acids . . .	383
JOHNSSON, M., T. BROGÅRDH, A. JOHNSSON and W. ENGELMANN: Period Lengthening Effect of Theophylline on Oscillatory Water Regulation in <i>Avena</i> . . .	238
JONAS, H.: Bleaching of Chlorophyll by Digitoxin . . .	42
KARTHA, K. K., O. L. GAMBORG, J. P. SHYLUK, and F. CONSTABEL: Morphogene Investigations on <i>in vitro</i> Leaf Culture of Tomato (<i>Lycopersicon esculentum</i> Mill. cv. Starfire) and high Frequency Plant Regeneration . . .	292
KAUL, R.: Rapid Method for Assessing Potential Net Photosynthesis in Plant Leaves . . .	75
KINET, J. M., M. BODSON, A. JACQARD, and G. BERNIER: The Inhibition of Flowering by Absciscic in <i>Sinapis alba</i> L. . .	70
KNOOP, B.: Untersuchungen zum Regenerationsmechanismus bei <i>Funaria hygrometrica</i> SIBTH. II. Zur Bedeutung der RNA- und Proteinsynthese bei der Regeneration isolierter Caulonemen . . .	120
KNOOP, B.: Untersuchungen zum Regenerationsmechanismus bei <i>Funaria hygrometrica</i> SIBTH. III. Auslösung durch Inhibitoren und Unterdrückung der apikalen Dominanz Studies on the Mechanism of Regeneration in <i>Funaria hygrometrica</i> SIBTH. III. Induction by Inhibitors and Suppression of Apical Dominance . . .	350
KÖHLEN, L. und P.-G. GÜLZ: Untersuchungen über die Kutikularwachse in der Gattung <i>Cistus</i> L. (<i>Cistaceae</i>). I. Die Zusammensetzung der Alkane in den Blattwachsen Investigations about Cuticular Waxes in the Genus <i>Cistus</i> L. (<i>Cistaceae</i>). I. The Composition of the Alkanes in Leaf Waxes . . .	99
KREMER, B. P.: Photosynthetic Carbon Metabolism of Chloroplasts Symbiotic with a marine Opisthobranch . . .	139
KU, S. B. and G. E. EDWARDS: Photosynthesis in Mesophyll Protoplasts and Bundle Sheath Cells of Various Types of C ₄ Plants. Enzymes of Respiratory Metabolism and Energy Utilizing Enzymes of Photosynthetic Pathways . . .	16
KUPILA-AHVENNIEMI, S. and L. KARJALAHTI: The Role of Absciscic Acid in Sterile and Grown Gall Inoculated Wounds . . .	260
MATTHEWS, P. S. and I. K. VASIL: The Dynamics of Cell Proliferation in Haploid and Diploid Tissues of <i>Nicotiana tabacum</i> . . .	222

NOEL, A. R. A. and J. VAN STADEN: Seed Coat Structure and Germination in <i>Podocarpus henkelii</i>	174
PALMER, C. E.: ADP-Glucose Pyrophosphorylase and UDP-Glucose Pyrophosphorylase Activity in Callus Tissue During Shoot Initiation and Callus Growth	345
PARAMESWARAN, N., J. KRUSE und W. LIESE: Aufbau und Feinstruktur von Periderm und Lenticellen der Fichtenrinde The Fine Structure of Periderm and Lenticel in Spruce Bark	212
PETTERSEN, R.: Control by Ammonium of Intercompartmental Guanine Transport in <i>Chlorella</i>	213
RADOJEVIĆ, LJ., R. VUJIČIĆ, and M. NEŠKOVIĆ: Embryogenesis in Tissue Culture of <i>Corylus avellana</i> L.	33
RAMANI, S., and S. KANNAN: Action of Mn^{++} on the Absorption of Na^+ , K^+ , and Rb^+ by Excised Rice Roots	107
RATHNAM, C. K. M., A. S. RAGHAVENDRA, and V. S. RAMA DAS: Diversity in the Arrangement of Mesophyll Cells among Leaves of Certain C_4 Dicotyledons in Relation to C_4 Physiology	283
RÜCKER, W.: Wirkung von Hydroxyharnstoff auf Entwicklung und Differenzierung <i>in vitro</i> kultivierter Protokorme von <i>Cymbidium</i> The Effect of Hydroxyurea on the Development and Differentiation of <i>Cymbidium</i> Protocorms <i>in vitro</i>	229
SCHLETZ, K.: Phototaxis bei <i>Volvox</i> – Pigmentsysteme der Lichtrichtungsperzeption Phototaxis in <i>Volvox</i> – Pigments involved in the perception of Light Direction	189
SCHNABL, H.: Der Einfluß von Aluminiumionen auf den Stärkemetabolismus von <i>Vicia faba</i> -Epidermen The Influence of Aluminium-ions on Starch Metabolism of Epidermal strips of <i>Vicia faba</i>	167
SCHOLZ, A.: Lichtorientierte Chloroplastenbewegung bei <i>Hormidium flaccidum</i> : Perception der Lichtrichtung mittels Sammellinseneffekt Light Oriented Chloroplast Movement in <i>Hormidium flaccidum</i> : Evidence for the Lens Effect as the Mechanism for Perceiving the Light Direction	406
SCHOLZ, A.: Lichtorientierte Chloroplastenbewegung bei <i>Hormidium flaccidum</i> : Verschiedene Methoden der Lichtrichtungsperzeption und die wirksamen Pigmente Light Oriented Chloroplast Movement in <i>Hormidium flaccidum</i> : Several Mechanisms for Perceiving the Light Direction, and the Photoreceptor Pigments Involved	422
SIMPSON, D. J. and T. H. LEE: The Fine Structure and Formation of Fibrils of <i>Capsicum annuum</i> L. Chromoplasts	127
VAN STADEN, J., and J. E. DAVEY: Cytokinin Translocation in Xylem Sap of Herbaceous Plants	377
VAN STADEN, J., J. E. DAVEY and L. M. DU PLESSIS: Lipid Utilization in Viable and Non-Viable <i>Protea compacta</i> Embryos during Germination	113
SUNDBERG, I. and M. NILSHAMMER-HOLMVALL: The Diurnal Variation in Phosphate Uptake and ATP Level in Relation to Deposition of Starch, Lipid, and Polyphosphate in Synchronized Cells of <i>Scenedesmus</i>	270
UNGER, W. and T. HARTMANN: Biosynthese aliphatischer Monoamine in Blütenpflanzen durch Nebenaktivität einer Glutamat-Oxalacetat-Aminotransferase? Biosynthesis of Aliphatic Monoamines in Flowering Plants due to Minor Activity of a Glutamate-Oxaloacetate-Aminotransferase?	255

WERNICKE, W., und H. W. KOHLENBACH: Akkumulation von Chlorogensäure in isolierten Mesophyllzellen von <i>Ipomoea batatas</i> POIR. Accumulation of Chlorogenic Acid in Isolated Mesophyll Cells of <i>Ipomoea batatas</i> POIR.	464
WILSON, L. A., and C. STERLING: Studies on the Cuticle of Tomato Fruit. I. Fine Structure of the Cuticle	359
ZEMEK, J., J. STRMEŇ and D. HRICOVÁ: Metabolism of 2-Deoxy-D-Glucose in the Yellow and the Green Spruce Culture (<i>Picea excelsa</i> LINK)	95
ZIESLIN, N. and A. H. HALEVY: Interaction between Cytokinins and CCC in Bud Breaking, Flower Bud Atrophy and the Gibberellin Content of Roses	160
ZINDLER-FRANK, E.: On the Formation of the Pattern of Crystal Idioplasts in <i>Canavalia ensiformis</i> DC. VII. Calcium and Oxalate Content of the Leaves in Dependence of Calcium Nutrition	80
ZILINSKAS, B. A. and GOVINDJEE: Stabilization by Glutaraldehyde Fixation of Chloroplast Membranes Against Inhibitors of Oxygen Evolution	302

Kurze Mitteilungen • Short Communications

ANAGNOSTAKI, E. and N. S. MARGARIS: Red Light Effect on Asp-U- ¹⁴ C Incorporation in the Soluble Fraction of <i>Zea mays</i> L.	86
GREGOR, H.-D.: Studies on Tyrosine Ammonia Lyase Activity in Castor Bean Endosperm	372
KYRIAKOPOULOS, E. und W. LARCHER: Saugspannungsdiagramm für austrocknende Blätter von <i>Quercus ilex</i> L. Changes in Water Potential in Leaves <i>Quercus ilex</i> L. during Desiccation	268
SHOMER-ILAN, A. and Y. WASEL: Further Comments on the Effects of NaCl on Photosynthesis in <i>Aeluropus litoralis</i>	272
SOPORY, S. K. and S. C. MAHESHWARI: Morphogenetic Potentialities of Haploid and Diploid Vegetative Parts of <i>Datura innoxia</i>	274
VAN STADEN, J. and J. STEWART: Cytokinins in Banana Fruit	280
WERNICKE, W., und H. W. KOHLENBACH: Antherenkulturen bei <i>Scopolia</i> Anthercultures in the Genus <i>Scopolia</i>	89
ZIEGLER, E., H. GUBBELS and H.-J. REISENER: An Improved Procedure for the Stereospecific Degradation of ¹⁴ C-labeled Citric Acid	278

Buchbesprechungen • Book Reviews

STERN, K., and L. ROCHE: Genetics of Forest Ecosystems. Besprochen von K. KREEB	94
BRAUNER, L., und F. BUKATSCH: Das kleine pflanzenphysiologische Praktikum. Besprochen von E. WELLMANN	187
KREEB, K.: Ökophysiologie der Pflanzen, Reihe «Bausteine der modernen Physiologie». Besprochen von W. LARCHER	187
SLAVIK, B.: Methods of studying water relations. Ecological Studies Band 9. Besprochen von K. KREEB	376
TOKIDA, J. und H. HIROSE, Advance of Phycology in Japan. Besprochen von G. WILLENBRINK	282
